Dave Gordon, President
National Brick Pavers
3450 N. Federal Highway
Lighthouse Point, FL 33064

Dear Dave:

I'd like to express my pleasure and appreciation for creating our "dream patio". This was a particularly demanding job with a number of custom features like a sheer descent waterfall, balustrade footers, custom pool coping and fitted marble stone pavers.

As a project management executive I laid out and National agreed to exacting specifications. The specifications and inevitable field changes were executed with professionalism and most importantly, with a positive "can do" attitude. Your crews are craftsmen of the highest order and were a pleasure to work with both in their willingness to correct minor items and their cleanliness on the job site.

I would recommend National Brick Pavers to any and all who envision a paving renovation project and encourage them to call me for a reference.

Very truly yours,

Fred Przybyla
