

July 22, 2008.

Hi David,

I prayed to the Lord that He would send me the right person to do an excellent job on the drive. You were that person.

You have done a beautiful job!! Thank you for the meticulous way in which you had your crew do the work. They were always prompt, courteous, and cleared up after every day's work. So many of my neighbors stopped by to admire and commend the job that had been done.

Special thanks to Edson Fernandez for his outstanding work. Good people are hard to find. It is easy to see why Edson has been your foreman for 19 years.

David your careful planning, design and paying attention to detail has assured this work to come out as it has!! I'm sure this is why National Brick Pavers is number one in this highly competitive industry!!

Your experience and oversight shined through when critical phases of this work were being accomplished!!!

I thank you for the outstanding work you have done.

Sincerely,
Michael Wee.
