To Whom It May Concern:

I have remodeled an entire house from top to bottom, exterior walls to exterior walls. I know the frustration of contractors that don't show up, late, over charge, provide poor workmanship and have terrible customer service.

WHAT A REFRESHING CHANGE....we are very please with the quality of work, follow-up and customer service from National brick Pavers and specifically Dave Gordon. We highly recommend him and his company. It was a pleasure working with him and his team. He seemed more like a friend than a contractor. We actually went with David over a lower bid because we felt confident that we won't have problems and we didn't.

Sincerely,

Ronald A. Episcopo
