RE: Zambory pool deck and coping job.

I would like to let you know that this has been one of the most enjoyable experiences I have ever had with a contractor in South Florida. Everything went as planned and was done with excellent craftsmanship.

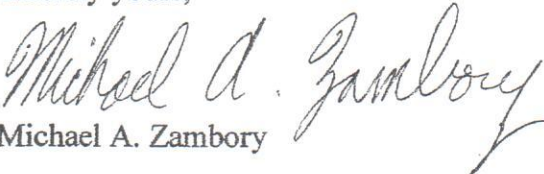

First, your salesperson Sal Varriano went out of his way to explain everything that was going to happen, he also called and kept us posted as to material delivery and when the project would start, a big A+++ in my book. We had a hard time picking colors and designs; he told us remember our showroom is always open, so on a Sunday afternoon we made all of our decisions. Then it was very easy for us to get things going.

Your coping crew arrived first, very courteous and polite skilled craftsman, the coping never looked so perfect and level, a superior improvement to our pool, better than when we bought the house.

Second the paver laying crew arrived, again professionals in every way, also courteous and polite. I could not believe the deck was completed in two days, I have a rather large deck 1,593 square feet. These men really worked hard and did everything perfectly the way we told Sal we wanted things done. No communication problems anywhere. You just don't see this in South Florida any more.

It has been a long time since I have written one of these letters to praise a company, I do not have one complaint, the job sight was also cleaned up perfectly! My hats off to you for a fine job and a excellent staff of people, keep up the good work. I will definitely tell other people about my experience with your company who are thinking about paver installation.

Sincerely yours,

Michael A. Zambory
