To Whom It May Concern:

I would like to herby express our appreciation and satisfaction regarding the excellent job Mr. David Gordon and his Company, National Brick Pavers, Corp., did for us.

Due to Hurricane Wilma our seawall collapsed and our pool deck and patio sustained extensive damages. It was a very complicated job to repair and rebuild the pool deck. National Brick Pavers took this complicated job and made our home look much better than it was before. Not only was the work excellent, but unlike other contractors, David Gordon was prompt, reliable, responsive and honest. These, unfortunately, are rare qualities and the time and aggravation one saves by dealing with honest, reliable people like Mr. Gordon is worth a lot.

We strongly recommend him and his company.

Sincerely,

A handwritten signature in black ink, appearing to read 'Uzi Bodman', with a long horizontal flourish extending to the right.

Uzi Bodman, M.D.
