Dear Dave,

We are so pleased with the final results of the driveway and the pool and patio area. We want to thank you for all your assistance in understanding our desires for these areas and working to make it all happen.

Both Ivaldo and Renato and their staff are very talented craftsmen and we appreciated their hard work and professionalism on the job. The areas have been enormously enhanced, gave us the look we were hoping for and in fact, exceeded our expectations.

We extend to you our greatest appreciation.
