To National Brick Pavers:

I am writing this letter to thank Steve Smalley and all the crew with National Brick Pavers for a job well done. Our original pool deck was installed in 2002 with Gem Pavers which are a great product but installed by contractors who didn't know what they were doing. We had numerous settling pavers and footers that were crumbling around the perimeter of the pool.

National Brick Pavers came to our house on a Thursday to quote the job and repaired previous paver job and added a whole new section to our patio in less than a week. These guys know what they're doing and do it well! The price was very reasonable and for the quality of work received we couldn't be happier.

Once we have recovered from all of our home improvements we will have them come back to do our driveway.

Thanks Again!

Jay Schmidlapp

President
