Dear Dave:

Thank you for doing a great job in replacing our broken up flagstone with beautiful pavers and retiling our pool. I must admit, I expected the job to take much longer and be a lot messier. Your workmen were very professional and extremely hardworking. On most days they worked until dark.

I must admit I have heard many horror stories about the workmen in Florida. Needless to say, I was pleasantly surprised by your men. I expected this job to take a least two weeks and it was completed in less than one week.

Again, thank you for doing an awesome job. I will recommend your company to anyone with an interest in having this type of work done.

Sincerely
